

Flood Damage

Flood Damage to Sealed Roads

Prepared by Grant Witheridge
Catchments & Creeks Pty Ltd

Flood Damage

Water Over Road

Flood waters can cause more problems than just road closures

Flood Damage

The Problem

Damage to sealed surfaces stops road traffic and costs money to repair

Flood Damage

The Problem

Failures include:

- potholes
- sub-surface failures
- piping failures
- removal of AC surface

Flood Damage

On the Positive

On a positive note, the AC often stacks itself neatly allowing easy removal

Flood Damage

Pothole Failures

Failure is commonly due to cars driving on flooded roads or wet sub-base
